CALIFORNIA,-The 'Sabine' arrived here on Sunday, the 30th ult., 14 days from San Francisco. She brings later news from the gold region. Nearly all the inhabitants of California are en. past 10, for the better accommodation of those who wish gaged in digging for gold. Immense quantities to attend, are found. Single pieces weighing five ounces the Throne, (the King being absent,) exactly at have been taken from the earth. The placera is believed to extend over a surface of 100 square miles. Many engaged in digging have already amassed fortunes. A private letter states that one man with a company of Indians has procured upwards of \$100,000 worth of gold already dah, and played military and other airs during Another man who had been on the ground but three weeks calculates he is worth \$3,000. Valuable diamonds are reported to have been found. All these reports are not authentic, and are doubtless somewhat exaggerated, but that the placera yields immense profits, there can be no doubt. Both newspapers have discontinued publication, and all branches of business except what is necessary to supply the wants of the people, are at a stand. Provisions and clothes are exorbitantly high on the ground, owing to the few facilities for transportation up the river.
